ANOTHER VICTORY FOR THE PEOPLE. The Board of Education yesterday adopted the report of the committee in favor of requesting the Board of Apportionment to transfer \$9,200 from an unexpended appropriation for the purpose of carrying out the provisions of the law providing for free lectures for the working men and women of the city during the winter. The Committee on Evening Schools was instructed to report s

The suggestion of this free and instructive amusement for the working people originated with THE EVENING WORLD, and the law was snacted through its efforts. We are, therefore, gratified that the proposed lectures receive the approbation and support of President Simmons and all but two members of the Board of Education, whose objections and criticisms, while doubtless honest, were unsound. Commissioner Core insisted that all the school money should be used for educating children, instead of diverting any portion of it for the instruction and improvement of grown people. But he was reminded that the same argument would stop the even. ing schools, which are attended by many

We congratulate the working people of the city on the success of THE EVENTRO WORLD'S afforts to provide for them a free and valuable amusement during the winter evenings.

DOUBLE-BARRELLED RIGAMY.

Mr. JAMES E. SMITH, of this city, was called to the Fifty-seventh Street Police Court yesterday to answer a charge of bigamy in having married MARY MUELLER while, as is alleged, he had a former wife who was at leny the marriage. Indeed, he admits three marriages instead of two, and makes his admitted double-barrelled bigamy the ground of his defense.

The plea is an ingenious one. James insists that his reputed first wife, who was married to him by Father FLOOD at St. John's Church in 1882, is not his wife at all, for this, if for no other reason : When he married her, as he says, he already had a living wife to whom he had been wedded ever since 1862, and who died less than three months ago. Hence the marriage by Pather Floor in 1882 was no legal marriage at all, and as the original, bona fide Mrs. SMITH of 1862 was defunct before JAMES married MARY MURLLER, a little over a month ago, he was at the latter period a widower and Many is the genuine present Mrs. SMITH.

Exactly how James calculates to get over the marriage of 1882 does not appear. However, he pretends not to remember that any such ceremony took place. At all events it will be a pity if JAMES manages to slip through the apparently open network of the

THE STRAW-BAIL EVIL

It is well known that our courts are infested with a set of pestilent rascals known as "straw-bail" men. These persons are at all times ready to go on bail bonds for a fee. Some of them have in some manner a title to a little property, which, however, is always secure against recovery for forfeited bail, while others are absolutely men of "straw." Yet they are willing to risk prosecution for perjury for the sake of

THE WORLD . making a few dollars. The practice is a most POLITICS IN NEW JERSEY. abominable one and is a great detriment to

> Yesterday an old man over sixty-four years of age offered himself as bondsman for a dishonest collector, charged with robbing his employer of \$1,500. As he was about to take the oath Recorder SMYTH stopped him and elicited the fact that a mortgage on a house he claimed to own free from debt had been foreclosed and judgment filed against him. The Recorder saved him from punishment for perjury.

These professional bondsmen are known to the court officers, and in no instance ought their bail to be accepted by a judge.

How much the people of New York have benefited by the successful efforts of Gov HILL to force a reorganization of the New Aqueduct Board is illustrated by the fact that BROWN, HOWARD & Co., the Republican branch of Aqueduct contractors, are said to have begun suit against the city for \$1,400,000 "damages" and money retained. The leakages having stopped, the "stand and deliver" policy is resorted to.

Judge Barchay, of the Circuit Court at St. Louis, has refused naturalization papers to a Chinaman. The Judge holds that all applicants for citizenship must be "free white persons, except those of African na tivity or descent," and that the right of citizenship cannot be conferred upon Indians of our own country nor upon "red or yellow or brown skinned people of other countries." Where does this leave Cubans?

It is simply scandalous that Congres should allow a day's needle-s delay in tue matter of a pension to Gen. SHERIDAN'S widow. Mrs. SHERMAN is at present in receipt of less than \$1,000 a year income. It is disgraceful to the nation that the hero's widow should be left a single hour in anxiety on the subject.

The Anti-Poverty Fair has got its licensand now Madison Square is merry with music and dancing. That is proper. And-Poverty certainly has a right to enjoy itself.

GOOD THINGS IN MARKET.

Codfish, 7 cents. Bluedeh, 12 centa. Weakfish, 10 cents. Pears, 10 or nus a quart. Eug plant, 5 to 10 cents. Cab age, 5 cents a head. Peacaes, 10 cents a quart. Green pean, 6 cents a quart, ettuer, 8 heads for 10 cents. Seat Butter, 18 cents a pound. Long Island eggs, 80 cen a desen. Lims beaus, 10 cents a small measure

WORLDLINGS.

The richest and most infigential Colnaman Chicago is Hip Lung, the Mayor of the Celestia colony there and the laundry king of the city. He s a little man physically. His fortune amounts to 1900, 000.

William R. Merriam, the Republican candida Governor of Minnesota, is thirty-eight years old, He is President of the First National Bank of Bi. Paul, which he entered as a clerk a few years ago. He was a student at Racine College, and while terr led his class in everything.

Senator Vance is very fond of his country home "Gombroom," a charming retreat in the moun tains of Western North Carolina. He lives the life of a country gentleman there every summer, and takes great pride in his poultry yard, his

orchard and his vineyard of choice grapes. The costliest house in Washington is the Worden mansion, the millionaire owner of which has made a large fortune in W shington real estate. It is of white stone and tooks like a Venetian p lace, with the time and is still alive. James does not a nandson e tower and a specious court-yard. It is firely turnished and the walls are hung with

> Mrs. James K. Polk, widow of the President. ow in her eighty-seventh year. She is cheerful out feeble, and is quietly and patiently waiting fo the end to come. She lives a life of comparative eclusion in the old Polk mension near Nashville. Her intellect is still bright, but her memory is

M. Gigure and Mr. Gardner. To the Editor of The Evening World:

In your issue of Aug. 29 an article appeared elative to M. Edward Gigure, the French relative to M. Edward Gigure, the French warbler, leaving Mr. E. M. Gardner's "Zo Zo" company and taking with him a wig and \$20 belonging to Mr. Gardner, and also stated that M. Gigure was under contract to go with the "Zo Zo" company this season. Now in April, 1885, I contracted with M. Gigure for five years' management, and it was by my written consent that M. Gigure joined Mr. Gardner's company in 1886 for the season of 1886-87. Negotiations were pending with Mr. Gardner and Thatcher, Primrose & West as to who should have Gigure during the season of 1887-88. As there was a contract between Messrs. Gardner and Gigure containing the regular two weeks' notice clause, M. Gigure gave and Mr. Gardner took the notice given in writing which broke the existing contract.

notice given in writing which broke the existing contract.

As M. Gigure is at Jacobs's Thalia Theatre this week with the "Kindergarden" company Mr. Gardner can make any demands on him he desires. It is an open question with M. Gigure whether he institutes suit against Mr. Gardner for slander or not, and were it not for the undersirable notoriety he would acquire thereby he would certainly do so under my advice. In justice to M. Gigure by giving publication to the above you will oblige yours truly, M. J. Jacobs. New York, Sept. 19.

The evening sale of my papers seems to be increasing, so please send me forty to-morrow night and hereafter until further notice, Mrs. W. H. MARTIN, Chappaqua, N. Y.

HUDSON COUNTY'S PORTION IS BOILING MERRILY IN THE POT.

With Ten Assemblymen to Choose, the County May Affect a United States aterial Blection - Democratic Caine Prophenied-fligh License or Local Option a Question to Be Met Also.

The men of Jersey City, Hoboken and the suburban sections of Hudson County who love politics are just beginning to realize that there is such a thing as a fall campaigu under way. The result of their wakening that the political pot on the other side of the river is beginning to boil and the men who want to fill various offices are up and doing. One Congressman and ten Assemblymen are to be elected in Hudson County.

In the Congressional matter there is little or no excitement. Mr. McAdoo will be returned. His only opponent in the convention which is to be held in Hoboken next Saturday will be ex-Assemblyman Edward F. McDonald, of Harrison, who will be far in the rear when the delegates' votes are counted. As yet the Republican party cradies no aspirant for its nomination. It is actually a drug on the market. Col. O. W. Fuller, State Superintendent of Schools, is the only available nomines. The honor is an empty one, as the Republicans concede a majority of over 8,000 for McAdoo.

The contests in the Assembly districts are warmer. There are two great issues involved—the election of United States Senator John R. McPherson's successor and the question of high license or no high license.

If the Letisla ure is Democratic Senator McPheron will be returned, or ex-Gov. Abbett will be his successor. Abbett's figh of 1886 will be remembered. It was without a parallel, but may be repeated.

William Waller Phelps, ex-Congressman George A. Haisey, of Newark, and Gen. William Joyce Sewell are the Republicans who covet the Senatorial seat.

The high-license issue is almost as weighty as the other. It has been the boast of the liquor dealers that the High-License law would be repealed by a Democratic Legalation of the liquor dealers that the High-License law would be repealed by a Democratic Legalating the statement of the liquor dealers that the High-License law would be repealed by a Democratic Legalating the statement of the liquor dealers that the High-License law would be repealed by a Democratic Legalating the statement of the liquor dealers that the High-License law would be repealed by a Democratic Legalating the dealers that the High-License law would be repealed by a Democratic Legalating the dealers that the High-License law would be repealed by a Democratic Legalating the dealers that the High-License law would be repealed by a Democratic Legalating the dealers that the High-License law would be repealed by a Democratic Legalating the dealers the law the l the rear when the delegates' votes are

would be repealed by a Democratic Legisla-ture this winter. The Republicans, on the other hand, declare that if they feel the inother hand, accelere that it devices the in-fluence of the liquor men against them they will circulate petitions for a local option elec-tion the day after the election, and bring every tangible element into the fight to carry the election and establish prohibition in Hudson County, with its thousand and a half

or salcons.

Notwithstanding these threats, the Senatorial issue and all, the Republican leaders admit that instead of five of the county's ten Assemblymen, the party will be represented this year by but three, or possibly two. The Democrate will regain the First and Sixth districts and possibly the Ninth. In the First district, Assemblyman Gal-

In the First district, Assemblyman Gallagher wants a renomination from the Republicans. Expludge R. B. Seymour wants it too but won't get it. President O'Neill, of the Board of Aldermen, will be the Democratic nomines, and will undoubtedly be elected.

In the Second District, the "Horseshoe," Assemblyman James N. Norton will be returned by the Democrats. Parick Sherran, who always looms up with the Senstorial issue, will run independently.

Col. Samuel D. Dickinson, the Speaker of the last House, will be renominated in his little Republican kingdom, the Third District. Aiderman Donnelly, backed by the liquor men, who hate the military Speaker, will run against him. Dickinson's re-election is conceded, although he may run a little behind his ticket.

tion is conceded, although he may run a lit-tle behind his ticket.

There is a warm fight for the nomination in the Fourth. Col. Heppenheimer, the present Assemblyman; Alderman Elliott and James Esterbrook all want recognition by the Democrats, and ex-Alderman Dzinba and W. L. Van Derzee look to the Republi-cans for the honor. ans for the honor. In the Fifth District Assemblyman Brown

cans for the honor.

In the Firth District Assemblyman Brown will be nominated by the Republicans, with Assemblyman Pearson on the Democratic ticket. Brown will-probably win.

Corporation Attorney Robert S. Hudspath will be nominated by the Sixth District Democrats and elected. John W. Heck will try to uphold the Republican standard.

Assemblyman Feeney will be returned by the Democrats of the ever Democratic Seventh. James Moran will run independently. In the Eighth the Democrats will recurn Assemblyman Farrell.

There will be a warm fight in the Ninth between Letts, the Republican Assemblyman, and Michael Coyle, the leader of Hoboken's Democrats. The issue is a matter of doubt. In the Tenth District. North Hudson, Assemblyman Frank Short will be returned by the Democrats. John Usher will be the Republican and Labor nominee.

The outcome of all these little battles will be one big battle, and the result in each district may affect the pilitical complexion of the next United United States Senate. There is certain to be an interesting chapter in the history of the liquor question evolved. There

the next United United States Senate. There is certain to be an interesting chapter in the history of the liquor question evolved. There will either be a repeal of the High License law or a local option election in Hudson County.

Vo.ers are beginning to realize these facts and the bulling of the efforces of political control.

and the boiling of the aforesaid political pot may be heard with growing distinctness.

LIFE IN THE STOKE-HOLE. Drift Caught Here and There by." Evening

IT QUICKLY BREAKS DOWN THE MOST RO-Since poor Mr. Crowley "gave up the ghost," Prof. Jake Cook has had more time BUST OF MEN.

> n Inquiring Reporter Visits the Englis Room and Stokers' Quarters of an At-Torrid Air, Laden with Coal-Dust and the Bad Smell of Oil.

form the same tricks that endeared her late husband to the hearts of New Yorkers.

While the carpenters are at work in the building, visitors are not allowed to go where the chimpanzes is kept: but an Evening Wohld representative watched the keeper and his charge perform their little tricks together. The death of Charles Johnson, the unfortunate Ohioan, who stowed himself away m the hold of the City of Rome on her last trip over and died while at work in the stokehole, suggested the idea of exploring the depths of an ocean steamer to an Evening Wonld reporter.

do was to climb the front of a ladder. The spinal insisted upon climbing up from below. After repeated attempts Jake was trium; hant, and Kitty bounded up the way she was ordered to.
In teaching her to turn a somersault Jake
picks kitty up by the hind legs and throws There is a standing rule on many of the Atlantic liners to allow none but an employee her over.

The greatest difficulty that he experiences is in teaching her to hold her knife correctly. She can grasp the folk all r ght, but when it comes to handling sharp-edged tools Kitty of the company in the engine or stoke rooms. and it requires some little perseverance to get below the main deck. No one can even step into the engine-room of any of the Cunarders seems to say:
'I pass.' The professor, however, is confident that she will overcome her timidity it time to attend the swell balls when they take in port unless in possession of a special pass issued at the office of the company, but there are comparatively few persons who care to go through long, oily passages to gratify an idle curiosity. Those who do manage to get a glumpse of the bottom of a steamship see nothing wonderful, but no man with a heart in his bosom ever looked at those poor wretches who pass their lives away in these veritable dungeons without showing some nity for them. Another pet has been added to the collection in the monkey house, It is a bonnet monkey from the island of Borneo, and was presented to the park menagerie by a French pity for them.

In the life of a coal stoker there are few pleasures, and the greatest one is to get a breath of air not contaminated with nauseous

gases.

There is no greater hardship than to be penned up in a dirty, poorly ventilated cavern, lighted only by the glare from whitehot furnaces. The life of a coal miner is preferable to this, for he has the advantage at least of a moderate temperature.

The reporter started on his tour of exploration, not apprehending much difficulty, but inside it and two doves outside. The sheep were not common, every-day mutton. They were "Sardinian Moufflon," and a chop from

The reporter stated in his tour of explora-tion not apprehending much difficulty, but only one out of an even half dozen attempts to see a stoke-hole was successful.

The second engineer of the Furuessia, of the Anchor line, Mr. Wilson, a very gentle-manly person, consented to show the way to the furnaces. and were from Ireland. Bridget, a comely, rosy-cheeked girl, clad in a black alpace and a red worsted shawl, was plump and vivacious. Pat was young, raw, lank and alow

slow.

The pair of doves were discussing the matter of the high fence in their own soft brogue. Pat had declared that it was necessary to keep the beast in his place and Bridget had expressed her conviction that it didn't need to be near so high.

At this moment the moufflon, who had been rushing his nose against the bars cir. Dozens of men were about the decks, psint-ing the woodwork, and in the engine-room assis:ant engineers were "tidying" things up

preparatory to salling day. An unpleasant odor of oil emanated from the place and everything in and about it seemed to have been besmeared with the bad-smelling lupricant.

Descending a long flight of iron stairs, the visitor and guide stood inithe upper part of the engine-room. Adjoining this was the dry air refrigerating apparatus and there was a stair refrigerating apparatus and there was been ru-bing his nose against the bars, cir-culated to the middle of his territory, and after some gyrations which looked as if he were in distress, relieved his feeling by gathwere in distress, relieved his recling by gathering his feet together and spring ng about three feet straight up in the air, like one of Buffalo Bill's "bucking" mustangs.

"Look at him skip!" shouted Bridget, giving Pat a dig in the ribs that caused him to give a monifion-like start himself.

"Now, do you see why the sticks is that long?" said Pat. "Sure he's only a bit of a baby, and whin he hev his growth he'll lape tin feet wid aise." an air of uncleanliness about the whole place. Passing down another long stairway brought the reporter into the engine-room proper, and lighting a steamer lamp, Mr. Wilson led

the way through a small opening into the stoke-hole. On all sides were banks of bi-tuminous coal, ready to be transferred into the furnaces. There were fifty-four fires to be attended There were fifty-four fires to be attended to take care of them. A more dismal place could not be imagined, yet the unfortunate fellows who worked there paid but little head to their surroundings, and contented themselves when off duty with smoking and drinking brandy.

"While they are at work they have a hard time of it," said Mr. Wilson, "but after a time they become ascus-omed to the work. You see, they work four hours and stay off eight hours. The men put in most of this time sleeping.

eight hours. The men put in most of this time sleeping.

"As a rule, stokers are big, strapping fellows, who have lost all hope of bettering their condition. A strong, healthy man lives in the stoke-hole only about two years before he is completely incapacitated for any other work. Occasionally men work a few years longer than that, but it's only a question of time with any of them. Living in a temperature of 120 to 130 degrees all the time must have some effect on any man, no matter how robust he may be. place of anger at the Malison Square Garand there was nusic at the big Anti-Poverty Fair. After trying to block up the too, too active police by legal technicalities, the man-agers of the fair finally went at the matter practically and bought \$150 worth of concert The fair will continue but two weeks, and what will be done with the surplus license is a matter yet to be considered.

Besides the music and the dancing, every

have some effect on any man, no matter how robust he may be.
"After all, though, these Atlantic liner stokers have a comparatively easy time. On a steamer in the bouthern seas the temperature is often 170 or 180 degrees."

The air was laden with coal dust and oil, and when the men emerged from the hole their clothes were completely covered with a mixture of oil and coal dust. Truly the stoke-hole is a terrible place.

Concert of the Aschenbroedel. The monster concert of the Aschenbroedel in aid of its relief fund will be held at Washington Park to-morrow (Friday) evening, S-pt. 21.
Theodore Thomas's grand orchestra will play, and the soloists will be: Miss Emms Juch, soprano; Theodore Toodt, tenor; George Brean, basso; Rapnael Joseffy, planist. The programme has been carefully prepared, and is of the most artistic selection.

Notes of the Campaign A mass-meeting of the Old Round-House Harri-son and Morton Club will be held this evening at the old Harlem Railroad Round-House, on Fourth avenue, between Thirty-third and Thirty-touth

The committee having charge of the arrangements for the big County Democracy ratification meeting at the Cooper Union to night has heard from den. Collins, Congressman O'Nelli, Col. Fellows, Howard Ellis and the other invited speakers, and everything is now in readiness. The music and firework accessories will be elaborate.

A Demogratic ratification meeting was held at the nall 47 West Sixteenth street last night. Stir-ring speeches, were made by Joseph C. Frederick, Henry Chairs, John Hassing, Edward Holton and Capt. Cuilom, and an organisation was perfected, with the following officers: Henry Charles, Presi-dent; John Espan, Vice-President; John Flanagar, Secretary, and Patrick Kelly, Treasurer.

Secretary, and Patrick Kelly, Treasurer.

At Lincoln Hall, corner of Allen and Houston streets, has been organized the Young Men's Democratic Club of the Tenth Assembly District, Officers: Jaques Ernest, Pre-tident; Fulus Steager, Vice-President; Herm. Deveroerg, Teasurer; Charles Scholberg, Secretary; Gas Schulz, Sergeant-at-Arms. The next meeting will be neid at the hall on Monday, Sept. 23, and Judge Alfred Steckler, Caroner Levy, Ger. F. Mosech and Julius Harburger will address the meeting. The club has now fluy-six members.

The Cleveland and Thurman Retail Dry Goods

now fity-six members.

The Cleveland and Thurman Retail Dry Grods Club, of New York, has enrolled up to the pressit and the officers are positive of 1,000 more members as before election. They invite alory-grods men to attend their meeting next Monitar event of at Cosmopolitan Hall. 31 Third arenue. Good speakers are to address the meeting. Toole not able to attend are also to send their names and addresses to Frank Holahan, 151 East Thirty-first effect.

The Cleveland and Thurman County Democracy Club of the Thirteenth Assembly District was held last evening at 216 Eights avenue, Copt. John Kenny in the chair. Arrangements were made for the grand parade of the Hans S. Beattle Battery to be held this evening. The members of the battery, in sallor uniforms, will march 301 strong through the Thirteenth Assembly District to Cooper Uniob, where they will join the great Democratic mass-meeting. Thirty-third street and Fourth avenue, to ratify ductors are employed principally on the Fourth Avenue road. Those who are off duty and who do not attend the meeting run the risk of being dis-

IS MARRIAGE A FAILURE?

It's the Most Interesting Query Propound to the Editor of The Evening World ;

Girls like to get married as well as young men. They can easily live on \$8 or \$10 a week. Two rooms are sufficient. But to promote marriage to its proper degree the Legislature must take hold of it and simply Legislature must take hold of it and simply proclaim that no unmarried man can vote except he be a widower. It a man is much older than his wife he doesn't want her to dress well. I have seen one who tore his wife's dress to pieces because she wanted to look fine. Such men it is best to get rid of. But I would rather go to Sait Lake than be an old maid. If the decrease of marriage lasts too long there will be more girls eloping with married men and morals will go to to the wind. Girls are natural; they are not born to be nuns. They must protect their

born to be nuns. They must protect their bealth, and be mothers whi e they are young and have attention in old age.

Mrs. S. SAGER WIENER, 122 Livingston street, Brooklyn, Sept. 16.

A Question of Electricity.

To the Editor of The Evening World . It is amusing to read the sentimental nonsense of your correspondents, whose mo-notonous refrain reveals the conviction that there is "something rotten in the State of Denmark," the remedy suggested being, not change and readjustment, but a coat of sentimental paint to hide the rottenness. With ethics reduced to an exact science, the solu-tion of the present question is found in its scientific bearings, mainly in the laws governing magnetism and electricity. We run electric motors on our avenues and are proud of our scientific progress, but that most won-derful of all electric motors, man, is treated with an ignorance perfectly appalling.

It All Dentude.

Marriage is the most important factor the economy of human life, and its success or failure cannot be decided by individual experience nor by local conditions. National customs and beliefs make marriage what it is. Whether it be a failure depends upon what is expected of it and what attained.

NERO.

MILLINERY NOVELTIES AT ROTHSCHILD'S. This Is the Fall Opening Day at the Big It is not strange that such a varied and elegant

assortment of bonnet and milinery goods as are displayed in the big show-windows and upon the counters of J. Rothschild's establishment, 55 West

displayed in the big show-windows and upon the counters of J. Rothschild's establishment, 56 West Fourteenth street, at its fall opening to-day, should have attracted the attention of all the shoopers in that busy thoroughfare.

All say long the store was crowded and the side-walks througed. As business is booming this year, the preparations made for the fall and winter trade have been greater than ever before. There is something to suit the taste and the purse of every customer in the way of millinery goods, in which the Brin deals exclusively, and as a general rule prices are much lower than in the past.

Not that there is any correst onding depreciation in the quality; on the courtery, it is up to the sligh atandard which has always usen observed, but the firm telleves in purchasing the best goods at the lowest price and giving them to their customers on the same bests.

A large portion of the stock consists of imported goos, but the majority is of the firm's own manufacture. The close bonnets and large hate are somewhat waried in style and shape since last year, but the novelty of the season will be the soft, felicity of the season will be the are many styles, and the display is this line is a most attractive one.

A festure of the season in regard to the trimming of hats will be the return to ostrich plannes. As many as three or four will be worn on the hat. This does not increase the price, for now three plans can be bought for the price of one a few years ago, when they were so popular. The lady who cannot find what she wants here must be difficult indeed to please.

FUN FOR AFTER DINNER. Should Bear It in Mind.

Husband-You are not the be, my dear. Wife-No. John, fortunately. You mustn't forget that your father died of dyspepsia.

A Noble Girl. George-Noble girl, that Clara Vere de Vereoble girl.

Augustus-Eh? I heard your engagement with her was broken.

'It is off, that is true; but, bless the dear girl'
heart, she has returned to me all the presents gave her."
"West of that?"
"Why, can't you seef It won't
thing now to get a new girl."

Not the Talk for Him. "Now by St. Paul!" exclaimed the tragedian playing " Richard III." Buy St. Paul !", said the stock exchange man in the andience. '' Not while there's a 16-cent break in the market. I'll stick to Lackawanna."

Hood's Serseparille is sold by drusgists, \$1; six for \$5. Prepared by C. I. HOOD & CO., Lowell, Mass.

A REMARKABLE CASE

The Well-Known Carlsbad Sprudel Salt, Procured from the Natural Springs of Carlsbad. Better Than Any of the So-Called Blood-Purifying Medicines.

The cashier of M. Guzgenbeim's Sons, 96 and 98 Franklin street, one of the largest import houses in the United States, writes under date of June 30, 1888, as

"For years I have suffered from abe For years I have suffered from abscesses which always formed on the back of my neck, and had to be cut from time to time to obtain relief. I used all sorts of bleed purifiers, but without avail. The abscesses would always reappear. I suffered very much pain until my hysician advised me to use the genuine imported Carle physician advised me to use the genuine imported Carla-bad Sprudel Sait (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease. My complexion cleared, and I have enjoyed good health ever since. I cannot speak too highly of this really valuable remety, and have recom-mended it to all my friends, who also speak of its won-derful effects as a laxative. Yours very respectfully,

Dr. A. L. A. Toboldt, in a paper read before the Ninth International Medical Congress, speaks of the genuins imported Carlsbad Sprudel Salt (powder form) as fel-

"My experience with the Carisbad Sprudel Salt Ponds in constipation, diseases of the stemach, liver and kid-neys, diabetes, gout, rheumatism, &c., has been such that I may truly say that no remedy which I have ever Dr. Lustig, in his book on the action of Carlsbad Water, sava:

"I may here state that in chronic abdominal allments_constipation, gastric catarrh, dyspepsia, diseases of the stomach, liver and kidneys, diabetes, gout and of the stomach, liver and kidneys, diabetes, gout and rheum tiam, we know of no more efficacious, rational or simpler remedy than the Carlabad Mineral Water and the Carlabad Sprudel Salt. A person can at any time of the year, without the least interruption to business, and with very little cost, not only remove any of the above silments but also prevent their further development by the use of this remedy."

The genuine Carlabad Sprudel Salt Powder is put up in round bottles. Each bottle comes in a paper carton, and has the sait of the city of Carlabad and the signature of Kinney & Mendalana Co. Rala Assents.

signature of Kaner & Mendelson Co., Sole Agenta, around the neck of every bottle. All others are worth mitations. Pamphiets mailed free upon applica-Eisner & Mendelson Co., 6 Barciay street, New
